- (17) The surrounding open spaces around the building should be consolidated in concrete having broken glass pieces at the rate of 0.125 cubic metres per 10 Sq.Mtrs below pavement.

- (18) The compound wall or fencing should be constructed clear of the road widening line with foundation below level of the bottom of road side drain without obstructing flow of rain water from adjoining holding before starting the work to prove the owner's holding.
- (19) No work should be started unless the existing structures or proposed to be demolished are demolished.
- (20) If it is proposed to demolish the existing structures by negotiations with the tenants, under the circumstances, the work as per approved plans should not be taken up in hand unless the Chief Engineer [SRA] is satisfied with the following :
- (i) Specific plans in respect of evicting or rehousing the existing tenants on your plot stating their number and the area in occupation of each.
  - (ii) Specifically signed agreement between you and the existing tenants that they are willing to avail for the alternative accomodation in the proposed structure.
  - (iii) Plans showing the phase programme of construction has to be duly approved by this office before starting the work so as not to contravene at any stage of construction, the Development Control Rules regarding open spaces, light and ventilation of existing structure.
- (21) In case of additional floor no work should be started during monsoon which will give rise to water leakage and consequent nuisance to the tenants staying on the floor below.
- (22) The bottom of the over head storage work above the finished level of the terrace shall not be more than 1 metre.
- (23) The work should not be started above first floor level unless the No Objection Certificate from the Civil Aviation Authorities, where necessary, is obtained.
- (24) It is to be understood that the foundations must be excavated down to hard soil.
- (25) The positions of the nahanis and other appurtenances in the building should be so arranged as not to necessitate the laying of drains inside the building.
- (26) No new well, tank, pond, cistern or fountain shall be dug or constructed without the previous permission in writing from the Chief Executive Officer of Slum Rehabilitation Authority.
- (27) All gully traps and open channel shall be provided with right fitting mosquito proof covers as per relevant I. S. specifications.
- (28) No broken bottle should be fixed over boundary walls. The prohibition refers only to broken bottles & not to the use of plains glass for coping over compound wall.
- (29) If the proposed addition is intended to be carried out on old foundations and structures, you will do so at your own risk.
