Residential Projects in MMR

WE HELP YOU MAKE THE INVESTMENT

Propscience is India's first direct to customer research-driven real estate portal specializing in residential real estate. We are not backed or associated with any builder, bank, or broking firm, nor do we offer any property management services. We are an unbiased entity focused solely on providing accurate and frequently updated information to prospective homebuyers and homeowners of under-construction properties in MMR.

We offer homebuyers and new home owners detailed information across 450+ data points along with several decision-making tools to help them make the best assessment of their prospective investment. At present we have over 2000 projects visible on our site, spread across MMR, catering to varied ticket sizes.

LOCATION

The project is in Powai. Powai is an upscale residential neighbourhood located in Mumbai situated on the banks of Powai lake. The Indian Institute of Technology, Bombay and currently the second oldest campus of the Indian Institutes of Technology as well as the National Institute of Industrial Engineering are both located here. Powai is also Mumbai's start-up hub. Powai houses countable number of schools, colleges and residential as well as industrial establishments.

HIRANANDANI HIGHLAND

LAND & APPROVALS

Legal Title Summary

The project has been constructed on MMRDA land that is leased to the developer HPG Community. The lease term is not mentioned in both title reports uploaded on the RERA website. As per both reports, the title of this plot of land is clear and marketable without any documented encumbrances.

Encumbrances

The project land and the proposed building is mortgaged with ICICI Bank Ltd.

HIRANANDANI HIGHLAND

REPORT SUMMARY

Expected Benefits

The project has its own private amenities such as a gym and swimming pool unlike other buildings in the Hiranandani Gardens township. It is located off the main road making it quieter than other parts of the sub locality. Flats within the project come fitted with a modular kitchen and other white goods making it easier for a buyer to rent the flat out or begin living with minimum additional expenses.

Perceived Shortcomings

The flat sizes are smaller than the average 2BHK in the sub locality. The land upon which the project has been built has been leased by the developers and is not

freehold. Any project built on leasehold land comes with encumbrances that may not always be favourable.

PROJECT PROPSCORE

Propscience uses a unique and highly proprietary algorithm to arrive at Propscores for every project it covers. This score is calculated out of 100 points. Through our detailed research we gather over 500 data points of information about each project. These data points are broken down into categories (mentioned below). An individual score is arrived at for each category and then a combined project Propscore is given. The purpose of the Propscore is to help you evaluate the distinct value you can hope to derive from each aspect of the project.

Category	Score
